November 9, 2001

Sir:

In response to the Official Action mailed September 14, 2001,
please amend this application as follows:

IN THE CLAIMS:

Please rewrite claim 1 as follows:

C1
1. (Twice Amended) A composite intended for medical use, in particular surgical or therapeutic use, characterized in that it comprises a mixture of

- a thermoplastic component plasticizable within the temperature range -10'...+100'C, which is substantially made up of hydroxy acids and structural units derived from hydroxy acid derivatives, and the molar mass of which is within the range 30,000 - 1,000,000 g/mol, and which degrades in the body typically within a period
